

September 3, 2021

Welcome to the New Weston Transfer Station!

We are excited to announce another new program to the transfer station that will help Weston meet its goal toward sustainable resource consumption, as we embark on our Climate Action and Resilience Plan, known as Weston Ahead.

On October 1st, the Pay As You Throw (PAYT) trash disposal program will begin. This program will encourage increased recycling and reuse opportunities, as well as provide a more equitable approach in how all users of the transfer station dispose of their household garbage. The program is outlined in more detail on the Town's website at WestonMA.gov/PAYT. The key points are as follows:

- Access to the Transfer Station will be free - all Weston households are eligible for two free permit stickers
- Recycling, yard waste and food scrap composting, textile recycling, and donations remain free
- All household trash that cannot be recycled, repurposed, or donated will need to go into the Weston-specific PAYT trash bag that will be available for purchase at local retailers
- The PAYT bags are available in two sizes - 15-gallon (\$2) and 30-gallon (\$4), both available in rolls of 10 – and will be in select stores starting September 20th. [See website for locations.](#)

Current Users

You are registered as a current user of the Transfer Station. To help with the program transition, one free permit sticker to the Transfer Station is enclosed with this letter:

- The registration number is what was listed as the primary vehicle for the last permit cycle
- If the registration number on it is incorrect, bring it with you to Town Hall for a replacement
- If you need a second permit, have that vehicle's registration number and contact the Treasurer/Collector at collector@westonma.gov or stop by Town Hall, Mon. – Fri., 8:30 to 5 p.m.

Recycling (and Reducing) At A Glance – Don't Treat it Like Garbage

Also included with this letter is a reference guide of items that can and cannot be recycled. You'll be surprised at just how much can be left out of the trash bag. Also refer to the Town's website at WestonMA.gov/RSW to find the state's online recycling reference tool, "Recyclopedia." For information on items that won't fit inside a trash bag, please refer to the Bulky Waste web page at WestonMA.gov/BulkyWaste or the Donation web page at WestonMA.gov/Donate to find nearby donation sites and disposal options.

WestonAhead.org

Weston Ahead is the town's Climate Action and Resilience Plan that launched this past spring and outlines a path toward a 50% reduction in greenhouse gas emissions by 2035. [This includes an 80% diversion rate](#) for tons recycled/total waste and a reduction of waste generation from 1.76 tons per household to .94. PAYT is a program with a proven track record across the state that will help Weston achieve this goal.
