Re: Kendal Village – Comprehensive Permit Application

Dear Ms. Stockman:

For your records, I enclose four (4) copies of the following documents:

1. MZO Group Site Sections dated December 2, 2016;
2. Post Construction Stormwater Management Report last revised December, 2016;
3. Sanitary Sewer Design Velocities;
4. Plan set last revised December 28, 2016;
5. DEI Response to Nitsch Engineering Comments of 12/20/16; and
6. DEI Response to Outstanding VHB Comments.

Please note for the record that while my client has provided substantive response to the recent comments from Nitsch Engineering, it objects to being subjected to three different peer reviewers – the ZBA’s reviewer, Dr. Friend’s reviewer and now the Planning Board’s outside engineering consultant.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brian C. Levey", is written over a printed name.

Brian C. Levey
